

How To Sign Up for Lounge Access	Setting Up for Travel	Important Notes
- Download the App: Download the "Visa Airport Companion" app from the Apple App Store or Google Play Store. - Activate Online Payments: Your card is enabled for international/online transactions. A \$0 test transaction is done for verification. - Sign Up: Open the app and select "Sign Up". - Enter Card Details: Input your Visa card number, expiry date, CVV, and country of issuance. - Verification (3D Secure): The app will perform a \$0 authorization and a 3D Secure check (One-Time Password/OTP) to authenticate the card. - Profile Setup: Enter personal details, ensuring the name matches your international passport, as this will be verified by lounge staff. - OTP Verification: A six-digit code will be sent via email or SMS to verify your contact information. - Create Password & Secure: Create a password and set up biometric access (Face ID/Fingerprint).	- Enable Offline Access: While connected to the internet, enable "Offline Access." This allows you to view your QR code/membership data without mobile data or Wi-Fi at the airport. - Check Entitlements: Review your profile to see how many complimentary lounges visits you have, as entitlements vary by card. - Add Additional Cards: If you have multiple eligible cards, you can add them all to one account and switch between them.	- Digital Only: Physical plastic cards are generally not accepted; you must use the digital membership QR code in the app. - Secondary/Supplementary Cards: Secondary cardholders cannot share a profile. Each person must register their own card in their own app account. - Guest Policies: You can bring guests, but if you exceed your complimentary visits, a fee of \$32 per person will be charged to your card. - Lounge Access: To access a lounge, select it within the "Explore Lounges" section, choose "Walk-in," and present the digital membership code.
